NORTHER begs to inform surveyors, contractors, builders, water companies, &c. that he has completed "Norther's" new patented machinery for making GLAZED STONEWARE DRAIN PIPES, JUNCTIONS, BENDS, SYPHON-TRAPS, &c. &c., amongst the many advantages of pipes made by this machinery over all others may be mentioned, that it ensures perfect uniformity in bore and size, both of pipes and sockets, the due boring of a sufficient number of holes for the escape of water, and the pipes and sockets being made by one process are secure from separation.
